

Consent for Dental Treatment

Patient Name: _____ Date: _____

PLEASE INITIAL EACH PARAGRAPH AFTER READING. IF YOU HAVE ANY QUESTIONS, PLEASE ASK YOUR DOCTOR BEFORE INITIALING.

____ 1. **Treatment:** I understand I am having the following dental treatment performed:

____ fillings ____ Crowns ____ Bridges ____ Dentures ____ Extractions

____ Impacted tooth removal ____ Root Canal ____ Other: _____

____ 2. **Medications and local anesthesia:** I understand that antibiotics, analgesics, anesthetics and other medications can cause allergic reactions, resulting in redness and swelling of tissues, itching, pain, nausea and vomiting or more severe allergic reactions. I understand that local anesthesia will produce a numb feeling in the area being operated on and a feeling of pressure during the procedure. You will be awake and recall the surgery, but there should be no significant discomfort. I have informed the doctor of any known allergies. Certain medications may cause drowsiness and it is advisable not to drive or operate hazardous equipment when using such drugs.

____ 3. **Nitrous Oxide (laughing gas):** I understand that the use of nitrous oxide, although usually safe and without lasting consequences, may affect me differently. I am prepared to deal with any undesirable side effects of nitrous oxide and understand that those possibilities listed above, as well as others not considered, may occur. I agree to the use of Nitrous Oxide analgesia ("Laughing Gas") to supplement the local anesthesia planned for my procedure. Please inform your dentist if you are or think you may be pregnant. We will not be able to use the laughing gas if this is the case.

____ 4. **Fillings:** I understand that a more extensive restoration than originally planned may be required due to additional conditions discovered during preparation. I understand that significant changes in response to temperature may occur after tooth restoration. I realize that fillings are not "permanent" and will require periodic replacement.

____ 5. **Crowns and Bridges:** I understand that it is sometimes not possible to exactly match the color of natural teeth with artificial teeth. I further understand that I may be wearing temporary crowns that are prone to loosening and may need re-cementing. I will notify my doctor of that occurrence so that a temporary restoration is maintained until the final restoration is delivered. I realize that any changes I may desire in color, shape, size, etc. of a crown must be made prior to final fabrication of the restoration. It is my responsibility to return within one month of tooth preparation for final cementation of the restoration. I understand I may need further treatment by a specialist if complications arise during treatment, and any costs thus incurred are my responsibility.

____ 6. **Dentures:** I understand that wearing dentures is not a simple process, that chewing efficiency will be diminished, and that dentures are not "permanent." Sore spots, altered speech and difficulty eating are common problems. Immediate dentures (placement of a denture immediately after extractions) may be quite uncomfortable for several weeks or months. Immediate dentures require frequent adjustment and one or more permanent relines within 6 months to one year. I understand that failure to keep appointments may result in a less desirable result. If a remake is required due to my delay, additional fees may be incurred.

____ 7. **Extractions:** Alternatives to tooth removal include root canal therapy, extensive restoration, periodontal (gum) treatment or crowns. It is my understanding that the following teeth will be removed: _____. I understand that removing teeth does not always remove existing infection and that further treatment may be necessary. I have been told that the risks of removing teeth include, but are not limited to: pain, swelling, infection, dry socket, fracture of bone or jaw, fractured root tips that may have to be left in socket, or the tooth or surrounding teeth may be damaged when tooth is removed, and possible loss of feeling in my lip and or other facial areas, cheek, tongue, gums and teeth. Such numbness may be temporary or permanent. I understand that further care by a specialist may be needed if complications arise during or after treatment, and that costs incurred are my responsibility.

____ 8. **Periodontal Therapy:** Periodontal disease can be a serious condition, causing gum inflammation and/or bone loss and may lead to loss of permanent teeth. Possible treatment plans have been explained to me, including deep cleaning, gum surgery and bone grafting, extraction of teeth and tooth replacement. I understand that much of the success of periodontal treatment depends on my continuing home care and faithful adherence to following my doctor's instruction, including strict observance of recall appointments. I understand that care by a specialist may be necessary.

____ 9. **Root Canal Therapy:** I realize there is no guarantee that root canal treatment will save a tooth, and that complications can occur from treatment. Occasionally the canal filling material may extend through the end of the root, which may or may not affect the success of treatment, and which may require additional treatment. I understand that root canal files are extremely fragile instruments and may sometimes separate within the root, which may or may not affect success. I understand that occasionally additional surgical procedures (apicoectomy) may be necessary to complete therapy. I also understand that a undetectable hairline crack in a tooth may cause failure, no matter how extensive therapy may be. A small percentage of root canals fail despite the best efforts. I also understand that further care by a specialist may be needed if complications arise during or after treatment, and that costs incurred are my responsibility.

____ 10. **Changes in Treatment Plan:** I understand that it may be necessary to change or add procedures because of conditions discovered during treatment that were not evident during examination. I authorize my doctor to use professional judgment to provide appropriate care.

____ 11. **Alternative Treatment:** _____

I understand that dentistry is not an exact science and that no specific results can be assured or guaranteed. I acknowledge that no such guarantees have been made regarding the dental treatment I have authorized. I understand that the treatment plan and fees proposed are subject to modification, depending upon unforeseen or undiagnosed conditions that may be recognized only during the course of treatment. I understand that any associated laboratory fees are my financial responsibility.

CONSENT: I have had the opportunity to have all my questions answered by my doctor and I certify that I understand English. My signature below signifies that I understand the treatment and anesthesia that is proposed for me, together with the known risks and complications associated with that treatment. I hereby give my consent for the treatment I have chosen.
